CAREER OBJECTIVE

Motivated Full Stack Developer with hands-on experience in Python, Flask, MySQL, and web application development. Skilled in designing secure, database-driven applications and developing AI-based solutions using YOLO. Passionate about solving real-world problems through technology and continuously learning modern development practices.

INTERNSHIP EXPERIENCE

Python Programming Intern **Mar – Jun 2026**
TORUS Solutions, Mysore

Completed a Python Programming Internship at TORUS Solutions, gaining hands-on experience in Python, Flask, MySQL, HTML, CSS, and JavaScript. Contributed as a Backend Developer in a team-based web application project by developing backend modules, integrating databases with the application, testing, debugging, and following industry-standard software development practices.

EDUCATION

Master of Computer Applications (MCA) **2026**
Maharaja Institute of Technology Mysore, Mysore CGPA: 9.24 / 10

Bachelor of Computer Applications (BCA) **2024**
MIT First Grade College, Mysore CGPA: 8.50 / 10

PCMC (PUC) **2021**
Seshadripuram Independent PU College, Mysore Percentage: 77.6%

10th (CBSE) **2019**
Shikshkarni Central and High School, Mysore Percentage: 73.6%

PROJECTS

Smart Invoice Connect | *Python, Flask, MySQL, HTML, CSS, JavaScript (GitHub Repository)* **May – Jun 2026**

- Developed a smart invoice management system using Flask Blueprints, MySQL, HTML, CSS, and JavaScript with secure authentication, customer, product, and invoice management modules.
- Implemented automated tax calculations, invoice generation, and centralized customer and product management through a responsive web interface.

Waste Classification Using YOLO | *Python, YOLOv8, OpenCV, Tkinter (GitHub Repository)* **Sep 2025**

- Developed a waste classification system using YOLOv8 and OpenCV to detect plastic, glass, cardboard, and paper from images with improved detection accuracy.
- Built a Tkinter desktop application that allows users to upload images or use a live camera for real-time waste classification with an intuitive and user-friendly interface.

Expense Tracker | *Python, Flask, SQLite, Tailwind CSS, MVC (GitHub Repository)* **Jun – Jul 2025**

- Developed a full-stack expense tracker using Flask, SQLite, and Tailwind CSS with secure login, expense management, and interactive Chart.js reports.
- Implemented expense filtering, sorting, and CRUD operations following the MVC architecture with a responsive and user-friendly interface.

TECHNICAL SKILLS

Programming Languages: Python, PHP, Java
Frameworks: Django, Flask
Web Technologies: HTML, CSS, JavaScript
Databases: MySQL, SQLite, Firebase
Tools & Platforms: Git, GitHub, VS Code
